- › Supervising and further developing the research granting process for Material Transfer Agreements

Your qualifications

- › Natural sciences or medical/dental degree
- › At least 3 years of experience in clinical research with medical devices, strategic research planning, KOL Management & product launches
- › Outstanding communication skills, strategic thinking, collaborative personality, agile mindset
- › Team player in cross-functional teams
- › Proficiency in English and German (English mother tongue an advantage)
- › Willingness to travel

Geistlich is a family-run Swiss company and a longstanding global leader in regenerative dentistry. We have a long tradition of pioneering attitudes that place the focus on employees. These employees are dedicated to the spirit that drives our company to excel: a passion for regeneration. This is the origin of our innovative medical products that reconstruct bones, cartilage and soft tissue. Our motivated team looks forward to working with you in a modern, dynamic environment with international flair.

We look forward to receiving your full electronic application at: recruiting@geistlich.ch
